C. DEFINITION OF TERMS USED TO IDENTIFY THE PROJECT REVIEW STATUS IN THE QUARTERLY STATUS REPORT

SCREENING

EAB Project is undergoing review by the Environmental Assessment Branch to determine if it is a 'development' as defined under *The Environmental Assessment Act.*

EARP Project is undergoing review by the Environmental Assessment Branch and members of the Saskatchewan Environmental Assessment Review Panel (SEARP) to determine if it is a 'development' as defined under *The Environmental Assessment Act.* In addition, copies have been forwarded to the Canadian Environmental Assessment Agency (CEAA) as part of the Canada/Saskatchewan EA Harmonization agreement for CEAA to determine if the *Canadian Environmental Assessment Act* applies.

NFS Project has been reviewed and the proponent has been advised that no further screening under *The Environmental Assessment Act* is required.(i.e., an opinion has been provided to the proponent that based upon the information they have provided the project does not meet the definition of 'development' under *The Environmental Assessment Act).* The proponent may now proceed with application for all other regulatory permits/approvals.

ENVIRONMENTAL IMPACT ASSESSMENT

EIA Proponent has been advised that their project is a 'development' as defined under *The Environmental Assessment Act* and that they will be required to conduct an Environmental Impact Assessment and seek ministerial approval before proceeding with their project. Studies are being conducted; technical and/or public reviews are in progress.

Sec16 Proponent of a project that has received a ministerial approval to proceed has now proposed a change in the 'development' that does not conform to the terms and conditions contained in the original approval and must obtain ministerial approval under Section 16 of *The Environmental Assessment Act* before proceeding with their change.

COM EIA has been completed and a Ministerial decision has been reached on the project this includes decision under Section 16 of *The Environmental Assessment Act* (changes to a previously approved development).

OTHER

DEF A deferred project is one that has been withdrawn from the environmental assessment review process by the proponent.

INACT The project has been placed in inactive status by the project manager due to no correspondence for over a year.
